

JACOB MERMIN INSPECTIONS

The JMI-200 is your first line of defense against household odors by fighting contaminants at their source. Designed to treat a single bathroom, laundry room, closet or other small space, the JMI 200 is the perfect unit to place near a litter box, trash receptacle or other problem area. The JMI 200 is designed to plug directly into any standard 110V household outlet and provide 24/7 service.
